

Are you interested in losing weight?

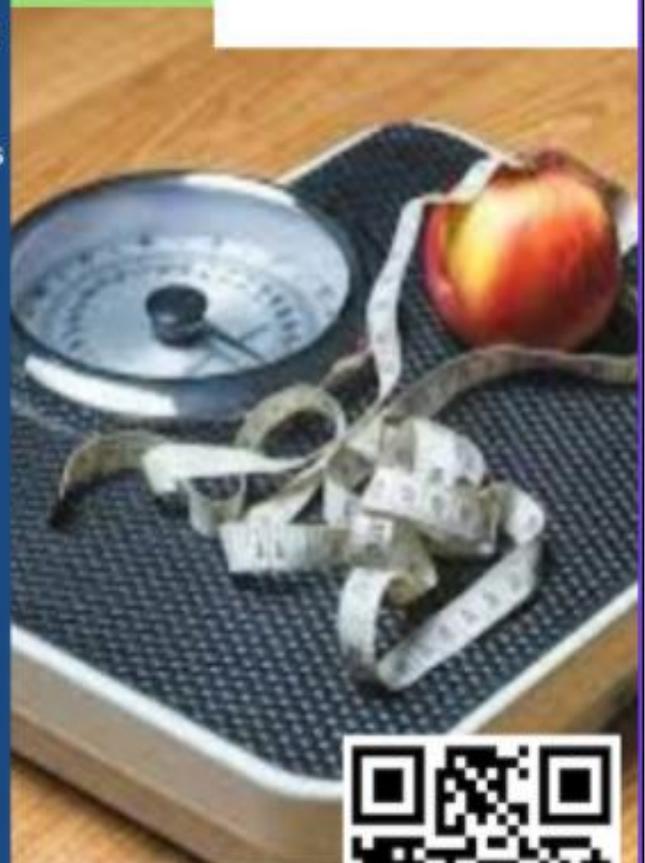

Doctors at Drexel University and the University of Pennsylvania are conducting a research study on the biological and behavioral effects of weight loss. The study will involve a 15-20 week behavioral weight loss intervention and a 12-month follow-up evaluation period.

You may qualify if you:

- Have high weight
- Are between 25 and 60 years old

Volunteers will undergo assessment visits at the hospital at the University of Pennsylvania.

Participants will be compensated up to \$3,000 and receive a cost-free weight loss intervention supported by the National Institutes of Health (NIH).
